

VP Admin Report 2021-22

Registration – Last season registration moved the HCR as required. We also had online only registration for the first time. The new HCR had its challenges, but our Registrar and Admin did a great job in walking everyone through the process. This upcoming season, everyone will register in the same way and with Covid behind us, we plan to open registration on a more regular timeline, early to mid Summer rather than late August.

Tournaments – As was discussed in the end of year budget review, the Ettinger-Smith Tournament did not happen. A committee was established, initial planning and teams were registered, however with the Winter Covid shut down and the uncertainty around reopening over March Break, we had to make the decision to cancel the tournament. This is unfortunate as the tournament is the main fundraiser for the Association. This season we are planning for 2 tournaments, the Ettinger-Smith and a U7 tournament.

Final note, to say thank you to all the team admin staff. Team staff are busy throughout the entire season, not just at the beginning and end. This season had it's Covid challenges again, which means changing ice schedules, revision budgets, etc. However everyone had a great season. So, a Thank You to all the volunteers, for dedicating their time, we can't operate without out you!
